

# Árpád Halász

I have been working in cynology for over 30 years but I am still fascinated by the experience of teaching. I started competing with working dogs in the early 90s.

I have competed in numerous regional, national and international working-dog competitions. I competed in World Championship Qualifications with Rottweiler, Boxer and German Shepherd dogs.

In 1989 I obtained my helper certification. Later I passed the exam for competition helpers. Since then I am preparing dogs for exams and competitions.

For a year I worked as a warrant officer at the dog handler institute of ORFK (Hungarian Police Headquarters Station). I served as the trainer of the immigration officers.

From 1991 I am the leader of the Gödöllői Kutyasport Központ (Dogsport Center)

From 1999-

I am a FCI International Schutzhund Judge. Since then I have been judging regularly regional and foreign exams, competitions and qualifications for world championships.

From 2014-

I am also working as an Obedience judge.

The only thing that could stop me from judging for a while was the birth of my beloved daughter (2015).

I am preparing myself continually. I am teaching trainers, helpers and judges on seminars and courses.

I successfully prepared my wife for several competitions with her Rottweiler. Our best result: 2015 ADRK World Championship, "A" phase: 100 pont.

As a judge I had the honor to judge several prestigious championships such as:

2003

"B" phase at the ISPU IPO World Championship as the second judge

2005

"A" phase at the FMBB IPO World Championship

2010

"C" phase at the Atibox IPO World Championship as the second judge

2011

I was the supervisor of the European Tracking Championship (Austria)

It fills me with pride to have the opportunity to judge on this outstanding Competition. I wish good luck for all the participants!
